To study a textbook, start by reading the introduction, which will often give a summary and outline of the book. Next, look over the table of contents to see how the book is organized and what topics will be covered. Once you have an idea of how the book will address the subject, skip to the end of each chapter

special. Not only do they give us knowledge, the meta concept of how to learn to learn. Once you discover these concepts, they will make all future knowledge become a little bit easier to grasp. Learning, after all, is not something we do from first grade until we graduate from college. Learning is something that is done for life.
