TRUMPF lasers Cutting, welding, marking, processing surfaces – more and more manufacturing technology experts are valuing the flexibility, versatility, and cost efficiency of the laser tool. At TRUMPF, you will find the right laser for any task. We offer you advice and support on how you can build your Smart Factory step by step by networking ...

Lasers | TRUMPF
The TruMark Series 5000 has a consistent modular design. The scanner optics, processing unit, and supply unit are coupled using plug connections so that the lasers are very easy to integrate in your production system or plant. The air-cooled lasers are extremely compact and feature numerous interfaces: a great advantage for integration.

TruMark Series 5000 | TRUMPF
TRUMPF is a high-tech company offering manufacturing solutions in the fields of machine tools, laser technology, electronics, and power tools. No matter how special and complex your requirements in the manufacturing industry are, you can rely on innovative products.

Products | TRUMPF
The TRUMPF CO2 lasers are available in different power ranges from 2 to 20 kW. The wavelength of 10.6 µm is very flexible and can be used for different material types and thicknesses. The laser processes are stable, productive, and low-spatter. Due to their compact design, the CO2 lasers can be easily integrated into existing systems.
