A solution appears in Solution Explorer on the right-hand side of the Visual Studio window. You'll probably use Solution Explorer often, to browse the contents of your projects.

Introduction to projects and solutions - Visual Studio ...

I had my solution in Visual Studio 2012 (which is under TFS source control) open and the TFS server (2010) was down. When I then made a change to one of the files and attempted to save it I got a prompt to ask whether I wanted to Overwrite the file saying the TFS server was down (can't remember the exact words) and the following message appeared in the Output window:

How do I get my solution in Visual Studio back online in ...

As fast as you can type, Visual Studio searches your entire solution for a file or path that starts with the characters you type and you can quickly select that file (with the keyboard using the arrow keys if you wish) and open it. If you're working in a solution with several projects or folders, this can be a significant time saver.
